

# Accelerate your cloud migration with DiscoverCloud and AWS OLA

- » Are you paying too much for your Microsoft workloads on AWS?
- » Struggling with license renewal costs and compliance issues?

**Eficens DiscoverCloud, offers an Optimization and Licensing Assessment to maximize the efficiency of your Microsoft workloads on AWS.**

## Right Choice for your Cloud Migration Journey

Maximize the value of your current licensing entitlements and tailor the on-premises licensing approaches to facilitate a smoother transition to the cloud, with Eficens DiscoverCloud's innovative cloud optimization strategies.

## Benefits of OLA

Optimize licensing and reduce costs with Eficens DiscoverCloud's AWS OLA, tailored to your unique business needs and goals.

### Rightsizing of resources

Identify workloads and catalog resources. Determine the best mix of on-demand, spot, dedicated, and reserved instances

### Cost reduction

Avoid over-provisioning and maximize existing license value. Configure instances for high performance with fewer licenses.

### Flexible licensing options

Offers flexible licensing options to prevent unnecessary costs and vendor lock-in.

## How it Works?

### Comprehensive Assessment

Begin with a thorough evaluation of your Windows workloads' consumption, costs, and provisioning across both on-premises and AWS environments.

### Workload Identification

Pinpoint key workloads for optimization with the help of our experts, ensuring a focused and effective approach.

### Data Collection

Employ tools like Migration Evaluator to gather essential utilization data, setting the stage for precise analysis.

### In-Depth Analysis

Expert analysis and modeling of costs and optimization scenarios, leveraging licensing and cloud optimization expertise.

### Plan your steps

Obtain a detailed plan for cloud migration and modernization of your IT infrastructure.

## Performing an AWS OLA yields substantial license optimization benefits:

**45%**

reduction in MS SQL Server licensing costs.

**77%**

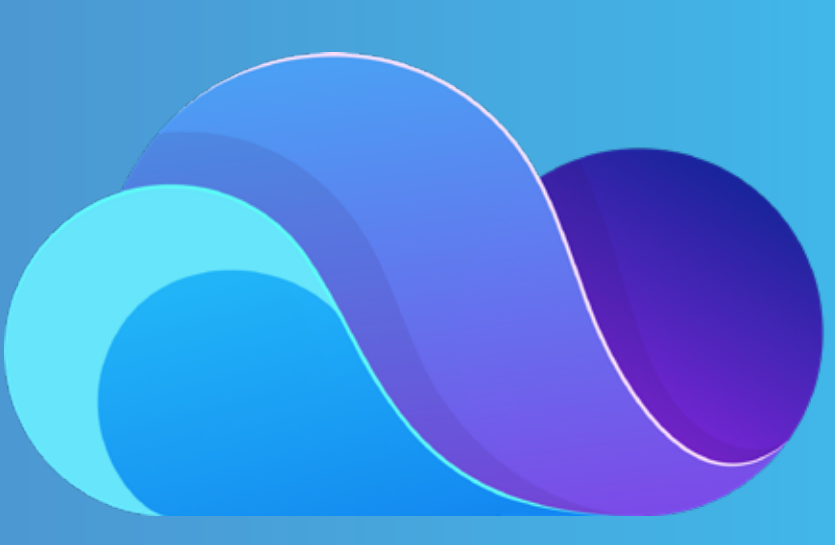

reduction in Windows Server licensing costs.

**98%**

of customers can migrate without additional license investments.

**3x**

Savings on licensing cost equals at least 3x the total cost of running these workloads in the AWS cloud.

## Get Started with Eficens DiscoverCloud your trusted AWS Partner

Eficens DiscoverCloud is a leader in cloud consulting and migration services, specializing in helping enterprises modernize their IT infrastructure on AWS. Our team of experts leverages cutting-edge tools and methodologies to ensure seamless transitions to the cloud, enabling businesses to achieve greater efficiency, security, and compliance.
