LUCIDPOINT

Optimization & Licensing Assessment: Microsoft Workloads on AWS

What do I have in my environment?

How do I get started?

Does AWS support my on-premises workloads?

Can I move my existing License?

How can I evacuate my Data Center?

How do I manage and transform our workloads after migration?

How can I lower my TCO?

How do I move these workloads?

How does Enterprise licensing work on AWS?

Is AWS more expensive than Azure?

What tools and funding are available to help?

❖ **Are you running Microsoft workloads? What type of applications are you running?**

❖ **What are your top priorities? Cost? Performance? HA? Reliability? Scalability?**

❖ **Do you have aging Windows environments with extended support you're looking to modernize?**

❖ **What benefits are you recognizing from your Microsoft licensing agreement?**

This Complimentary program helps navigate the licensing options, enabling you to optimize your current spend and future cloud consumption. Contact us for more details on the Optimization and Licensing Assessment
